Annex 1

1. Determination of the Final Redemption Amount:

The Final Redemption Amount will be calculated by the Calculation Agent depending on the performance of the underlying **Index Basket**. The Calculation Agent will, on each of the Observation Dates (see below), determine the respective Closing Price of the three Indices and calculate the average of the 12 values. The Calculation Agent will then determine the respective average value of the performances of all three Indices, with a floor at 100.00 per cent of the notional amount (capital guarantee at redemption). The Final redemption Amount will be determined according to the following formula:

$$\text{Final Redemption Amount: Notional amount} \times \text{Max} \left(\frac{1}{3} \sum_{k=1}^3 \text{Component_Average}_k; 100\% \right)$$

With respect to these provisions the following terms will apply:

Max [] The higher of the values in brackets is applicable

$$\text{Component_Average}_k \quad \text{Component_Average}_k = \frac{1}{12} \sum_{t=1}^{12} \frac{\text{Component}_k(t)}{\text{Component}_k(\text{initial})}$$

$\text{Component}_k(t)$ Closing Price of the Component (k) on Observation Date (t)

$\text{Component}_k(\text{initial})$ Closing Price of the Component (k) on the Strike Date

Closing Price Value of the respective Index at the Valuation Time, and with respect to the iShares DJ US Real Estate, the Net Asset Value as published by the Fund Manager/Administrator in accordance with the Fund Prospectus.

If any such Observation Date, or the Strike Date, respectively, is not a relevant Scheduled Trading Day in respect of the Component, then that Observation Date or the Strike Date, respectively, for the Index shall be the next following relevant Scheduled Trading Day in respect of the Index unless such relevant Scheduled Trading Day is a Disrupted Day.

Exchange: With respect to the **EURO STOXX 50 Index** and the **DJ-UBS COMMODITY INDEX**, in respect of each component security of this Index (each a "Component Security"), the principal stock exchange on which such Component Security is principally traded, as determined by the Calculation

	Agent.
Related Exchange:	With respect to the EURO STOXX 50 Index and the DJ-UBS Commodity Index each exchange or quotation system where trading has a material effect on the overall market for futures or options contracts relating to the Index.

Scheduled Trading Day:	With respect to the EURO STOXX 50 Index and the DJ-UBS Commodity Index any day on which (i) the Index Sponsor is scheduled to publish the level of the Index, and (ii) the Related Exchange is scheduled to be open for trading during their respective regular trading sessions.
Valuation Time:	With respect to the EURO STOXX 50 Index and the DJ-UBS Commodity Index (i) for the purposes of determining whether a Market Disruption Event has occurred: (a) in respect of any Component Security, the Scheduled Closing Time on the Exchange in respect of such Component Security, and (b) in respect of any options contracts or future contracts on the Index, the close of trading on the Related Exchange; and (ii) in all other circumstances, the time at which the official closing level of the Index is calculated and published by the Index Sponsor.
Scheduled Closing Time:	In respect of an Exchange or Related Exchange and a Scheduled Trading Day, any scheduled weekday closing time of such Exchange or Related Exchange, without regard to after hours or any other trading outside of the regular trading session hours.
Disrupted Day:	(I) With respect to the EURO STOXX 50 Index and the DJ-UBS Commodity Index: Any Scheduled Trading Day on which: (i) the Index Sponsor fails to publish the level of the Index; (ii) the Related Exchange fails to open for trading during its regular trading session; or (iii) a Market Disruption Event has occurred, and (II) with respect to the iShares DJ US Real Estate, any scheduled Fund Business Day on which the Fund Manager/Administrator fails to publish the Net Asset Value.
Market Disruption Event:	(I) With respect to the EURO STOXX 50 Index and the DJ-UBS Commodity Index either: <ul style="list-style-type: none"> (i) (a) the occurrence or existence, in respect of any Component Security, of: <ul style="list-style-type: none"> (1) a Trading Disruption, which the Calculation Agent determines is material, at any time during the one hour period that ends at the relevant Valuation Time in respect of the Exchange on which such Component Security is principally traded; (2) an Exchange Disruption, which the Calculation Agent determines is material, at any time during the one hour period that ends at the relevant Valuation Time in respect of the Exchange on which such Component Security is principally traded; OR (3) an Early Closure; AND (b) the aggregate of all Component Securities in respect of which a Trading Disruption, an Exchange Disruption or an Early Closure

occurs or exists comprises 20 per cent. or more of the level of the Index; OR

- (ii) the occurrence or existence, in respect of futures or options contracts relating to the Index, of: (a) a Trading Disruption; (b) an Exchange Disruption, which in either case the Calculation Agent determines is material, at any time during the one hour period that ends at the Valuation Time in respect of the Related Exchange; or (c) an Early Closure.

For the purposes of determining whether a Market Disruption Event exists in respect of the Index at any time, if a Market Disruption Event occurs in respect of a Component Security at that time, then the relevant percentage contribution of that Component Security to the level of the Index shall be based on a comparison of (x) the portion of the level of the Index attributable to that Component Security to (y) the overall level of the Index, in each case using the official opening weightings as published by the Index Sponsor as part of the market "opening data".

Trading Disruption: With respect to the EURO STOXX 50 Index and the DJ-UBS Commodity Index any suspension of or limitation imposed on trading by the relevant Exchange or Related Exchange or otherwise and whether by reason of movements in price exceeding limits permitted by the relevant Exchange or Related Exchange or otherwise: (i) relating to any Component Security on the Exchange in respect of such Component Security; or (ii) in futures or options contracts relating to the Index on the Related Exchange.

Exchange Disruption: With respect to EURO STOXX 50 Index and the DJ-UBS Commodity Index, any event (other than an Early Closure) that disrupts or impairs (as determined by the Calculation Agent) the ability of market participants in general to effect transactions in, or obtain market values for: (i) any Component Security on the Exchange in respect of such Component Security; or (ii) futures or options contracts relating to the Index on the Related Exchange.

Early Closure: The closure on any Exchange Business Day of the Exchange in respect of any Component Security or the Related Exchange prior to its Scheduled Closing Time unless such earlier closing is announced by such Exchange or Related Exchange (as the case may be) at least one hour prior to the earlier of: (i) the actual closing time for the regular trading session on such Exchange or Related Exchange (as the case may be) on such Exchange Business Day; and (ii) the submission deadline for orders to be entered into the Exchange or Related Exchange system for execution at the relevant Valuation Time on such Exchange Business Day.

Index Adjustment With respect to the EURO STOXX 50 Index and the DJ-UBS Commodity Index a) if the relevant Index is (i) not calculated and announced by the Index Sponsor but is calculated and announced by a successor sponsor acceptable to the Calculation Agent, or (ii) replaced by a successor index using, in the determination of the Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of that Index, then in each case that index (the "Successor Index") will be deemed to be the Index.

If (i) on or prior to any Valuation Date, the relevant Index Sponsor makes a material change in the formula for or the method of calculating that Index or in any other way materially modifies that Index (other than a modification prescribed in that formula or method to maintain that Index in the event of changes in constituent stock and capitalization and other routine events) (an

"Index Modification") or permanently cancels the Index and no Successor Index exists (an "Index Cancellation") or (ii) on any Valuation Date, the Index Sponsor fails to calculate and announce a relevant Index (an "Index Disruption" and together with an Index Modification and an Index Cancellation, each an "Index Adjustment Event"), then the Calculation Agent shall determine if such Index Adjustment Event has a material effect on these Notes and, if so, shall calculate the relevant value of the relevant Index using, in lieu of a published level for that Index, the level for that Index as at that Valuation Date as determined by the Calculation Agent in accordance with the formula for and method of calculating that Index last in effect prior to that change, failure or cancellation, but using only those securities that comprised that Index immediately prior to that Index Adjustment Event.

With respect to the iShares DJ US Real Estate if the Fund Manager/Administrator fails to calculate and publish the Net Asset Value for whatever reason and such failure continues for 5 Business Days then the Calculation Agent will determine the Closing Price for the iShares DJ US Real Estate at its sole discretion for the respective Observation Date.
